PROFILE SUMMARY

Passionate Blockchain and Solidity Developer focused on building real-world smart contracts. Skilled in Ethereum development, EVM fundamentals, and deploying decentralized applications on testnets. Continuously learning and structuring decentralized projects to gain strong hands-on Web3 experience.

TECHNICAL SKILLS

Blockchain & Smart Contracts

- Solidity (Intermediate)
- Smart Contract Development
- Ethereum Virtual Machine (EVM)
- Blockchain Fundamentals
- Token Standards (ERC-20, ERC-721, ERC-1155)

Web3 Development

- Ethers.js (Wallet connection + read/write contracts)
- Web3 Integrations (Frontend ↔ Smart Contract)

Ethereum Ecosystem

- Remix IDE
- MetaMask
- Ethereum Testnet (Sepolia)
- Smart Contract Deployment

Version Control

- GitHub
-

SOFT SKILLS

Dedicated | Decision Making | Smart Worker | Problem-Solving | Quick Learner | Risk Handling | Enthusiastic

EDUCATION

- A S Patil College of Commerce (Autonomous), Vijayapura — CGPA: 8.4 (2025)
 - BLDEA's Commerce, BHS Arts & TGP Science College, Jamakhandi — 70.33% (2022)
 - Shri Sai Gangotri High School, Mudhol — 77.28% (2020)
-

BLOCKCHAIN PROJECTS

Decentralized Voting Smart Contract — Solidity, Sepolia Testnet

- Admin can add/manage candidates
- Each wallet can cast only one vote
- Uses events for efficient tracking
- Auto-calculates winner on-chain
- Built using Remix + MetaMask, verified on Etherscan

 *Live Contract:*

<https://sepolia.etherscan.io/address/0x2bda571b1a727a92178e0956587376027cc75231#readContract>

To-Do List Smart Contract — Solidity, Sepolia Testnet

- Wallet-specific on-chain task manager
- Add, update, delete tasks securely
- Transparent and immutable storage
- Built using Remix + MetaMask, verified on Etherscan

 *Live Contract:*

<https://sepolia.etherscan.io/address/0x107d809fdeebdef5bc73b720cdb29e246a9b1f92#readContract>
